Second Knolls Development Regional Transportation Study

Public Open House

November 12, 2013

Town of
SNOWFLAKE
ARIZONA

Taylor

You Are Invited to a Public Open House & Presentation

Tuesday, November 12, 5 - 6 pm**
Snowflake Town Hall, 81 W. 1st South St.

Do you ever think about what it would take to attract different types of industries to the Snowflake area? What transportation facilities and other infrastructure would the industries require? How much of that do we already have, and how could we get the rest? What else is essential to stimulate growth?

If these questions interest you, please join representatives of the Second Knolls Development Regional Transportation Study for an Open House and Presentation. The project team, comprised of stakeholders and government agencies, studied these questions and more. They created economic development scenarios and a transportation framework to support commercial, industrial, and residential growth. The meeting is hosted by the Town of Snowflake in partnership with the Arizona Department of Transportation and other collaborators.

For more information contact Town of Snowflake Engineer Rob Emmett (928.536.7103), ADOT Project Manager Justin Feek (602.712.6196), or Michael Gorton, Senior Transportation Planner, HDR Engineering, Inc. (602.474.3916).

** The presentation has been listed in the newspaper as starting at 6 pm. It will start at 5 pm.
